

## TVB Health Days

Quality HealthCare organized a 4-day HealthCare event for TVB from 23rd to 26th October 2007.

To increase TVB staff's awareness on different health issues, we set up several on-site informative booths. There were "male pattern hair loss" screening test, "HPV awareness" gaming board as well as "asthma and allergic rhinitis" questionnaire distribution during the event. Consultation with registered Chinese practitioner was also provided for the participants on 24th October.

The event was incredibly successful with more than 200 participants enthusiastically involved in this comprehensive health programme. Undoubtedly, it has enhanced their knowledge on major health topics, a first step in developing a healthy lifestyle.

*Leaflets were provided at the booths*

*TVB staff enjoying the HPV awareness board game*

*Participants having consultations with the Chinese Medicine Practitioner*
